Workshop

Organized By

Department of Planning

**School of Planning and
Architecture Vijayawada**

**27th and 28th October
2023**

About the Workshop

Local Area Planning is devised to improve and enhance the existing developed areas. It is prepared for improving, retrofitting and/or solving issues in these currently developed areas and areas under immediate development potential. The proposed theme of the workshop/special lecture, i.e., Local Area Planning has been the prime focus of the present urban development agenda/policy regime in India, and this workshop with the expert will help students develop skill sets linked to the topic and their planning & design studios.
