Workshop on Water

Lecture on

Urban Freshwater Ecosystems:

Resilience tools in a climate uncertain future.

by

Ar.Sahana Goswami

Manager - Urban Water

at World Resources Institute (WRI), India

Ar. Sahana Goswami works on urban water issues with a focus on natural infrastructure and blue-green solutions, reuse and resource recovery from urban wastewater streams. At WRI India she has also worked on transit oriented development and provision of safe access to transit station areas across urban centres in India. Her prior academic writing experience includes the development of factsheets on water resources planning for the south-east Wisconsin region and journal papers on equity planning in economic development schemes of local governments in the U.S. She has also worked as an architect and urban planner in a private architecture and design firm.
